Abstract (en)

[origin: EP0949382A2] Each element (1) comprises two opposing parallel wall panels (2,3) joined together along two opposing panel edges (4-7) by two profiled strips (8,9). Spring fittings (10-13) integrally formed from the strips lock into undercut length direction grooves (14-17) formed by the strips. An Independent claim is also included for a noise barrier constructed from these wall elements, connected together by H-profile posts.
