Abstract (en)  
[origin: WO9829693A1] A burner control instrument for controlling at least some functions of a burner includes a display (2), switch means (11) for switching the display (2) on and off, and a sensor (8) for detecting proximity of a person to the display, the sensor being arranged to cause the switch means (11) to switch the display on in response to detecting the proximity of a person.
