Abstract (en)

[origin: EP0952258A2] The component has a basic body (1) with concrete-side surface parts (3) forming vertical guide components (2), between which a U-shaped pressure body (6) in the section of a horizontal plane (x-x) is formed with a vertical through passage (5) to accommodate a bracing device (4). The pressure body is locatable between the surface parts (3) of the guide components (2).
