Abstract (en)

[origin: EP0952403A2] The oven has a device on which cooking carriers can rest. Pairs of telescopic pullouts can be pulled from the side wall region to an outside position. There are roughly horizontal guide tracks (11) in the side wall region of the oven muffle (3), in which a pullout frame (13) is fitted by means of guide tubes (21). The telescopic pullouts are held on this frame and can be pulled out from it.
