Abstract (en)
[origin: EP0952410A2] A riser pipe (30) is beside the heater (10) and opens onto the top side part of the at least one heater plate (12). The riser pipe connects the forward flow pipe (24) to the at least one heater plate. The backflow pipe part (32) is positioned on the other side part of the heater or heater plate, on the bottom part of the at least one heater plate. The backflow pipe joins the heater or heater plate to the backflow connection (26). The riser pipe and backflow pipe connecting part are connected to the at least one heater plate by identical connecting fittings (34,36).
