Abstract (en)

[origin: EP0952423A1] The system consists of a base in the form of a rigid grid (6) of square mesh (7) holding supports (10) for the tableau igniters (11). The grid is self-supporting and surrounded by a frame (1), and the supports can be in the form of coil springs with close coils which screw into the mesh holes and are held under tension Two or more adjacent igniters can be connected by a strip (19) of a folded adhesive material.
