Abstract (en)  
[origin: WO9521625A1] The present invention relates to a composition for enhancing the immune response of an animal to an infectious disease vaccine wherein the composition comprises prolactin. Preferably, the composition is human prolactin and the animal to be vaccinated is, as well, human. The present invention further relates to a composition for enhancing the immune response of an animal to an infectious disease vaccine wherein the composition comprises prolactin cDNA. Human prolactin cDNA is preferred.
