Abstract (en)

In a paper cutter, on the paper putting stand, a pair of guide grooves 10 are provided in parallel and spacing each other, the paper abutting scale 3 is provided in such a manner as it can slide along the guide grooves and it is provided with the push-contacting plates 15 to be contacted to the walls of the guide grooves 10 and the pushing plate 14, wherein by making the pushing plate 14 drive by inclining the lever 17 to push the push-contacting plate 15 against the wall of the guide grooves to brake and fix the paper abutting scale 3 on the guide grooves 10. Thereby, the positioning of the papers to be cut is carried out easily by one touch and the paper cutting efficiency is increased. <IMAGE>
