Abstract (en)
[origin: WO9830682A1] The present invention relates to modified enzymes suitable for skin care having from 4 to 70 polymeric molecules, with a molecule weight from 1 to 35 kDa, coupled covalently to the surface of parent enzymes having a molecule weight from 15 to 100 kDa. Further the invention is directed towards skin care compositions and products comprising such modified enzymes and finally the use of said modified enzyme for reducing the sensitisation potential of skin care products.
