Abstract (en)

[origin: EP0954992A2] The invention concerns an helmet provided with holes for aerating the user's head in which is provided a cap (1) having holes (10', 10'', 10''') formed by two cap portions (1a-1d), each having a plurality of holes having axes substantially parallel to each other. The invention refers moreover to the process for manufacturing said helmet. <IMAGE>
