Abstract (en)

[origin: EP0955441A1] The window has a sealing system comprising several seals (28,30,32,34,36), which in the open state of the window (10) work together and/or with sections of the window and frame (12) to form a labyrinth seal. On the frame an additional water-deflecting barrier (36) is formed. The window and/or the frame in the area of the opening gap incorporates a sound-absorbing material (42).
