Abstract (en)

[origin: EP0957216A1] Assembly for mounting cladding panels (P) on means of support fastened to the facades and/or floor slabs of buildings. The assembly that is the subject of this invention comprises a main section (1) that is fastened to means of support fastened beforehand to the facade and/or floor slabs of buildings and a secondary section (2) that is fastened to the cladding panel (P) and connected to the main section (1). The main section (1) has an overall U-shape, fastened at the middle (1a) to the means of support, with at least one of the legs (1b,1c) provided with means for connection to the secondary section (2). The secondary section (2) has a U-shape with one leg (2b) shorter than the other (2a), with the longer leg (2a) provided with an inclined flange (11) and striations (13) for fastening to the cladding panel (P) and with the shorter leg (2b) connecting to the main section (1). <IMAGE>
