Abstract (en)  
[origin: EP0957540A2] The plug connector has first housing part (10) and a second housing part (12), having a seal body (14) arranged between the two housing parts. The seal is made of an electrically conductive material and is electrically connected to at least one of the housing parts. The seal body preferably has an H-shaped profile, and may be made of a light metal alloy.
