Abstract (en)

Shower cubicle (1) comprising at least one wall consisting of a roll-up curtain (9) extending between two parallel vertical fixed uprights (4,5), one of which comprises the roller about which the curtain (9) is roiled, these being joined together at their top and bottom by two identical opposing parallel horizontal guides (6,6') having a groove for receiving the upper and lower edges of the curtain (9), and on which there slides a rigid operating bar (12) provided on the front edge of the curtain (9) and able to maintain this latter taut even where its upper and lower edges are not secured to the horizontal guides (6,6'). <IMAGE>
