Abstract (en)
[origin: EP0959194A2] The blade (16) is fitted on an operating lever (22) and is limitedly pivotable around an axis parallel to the profile. The support frame (11) is provided with a locator (17), preferably beneath the blade, for the profile to be machined. The locator in the direction of the blade is height-adjustably fitted, preferably in a staged manner, on the support frame.
