Abstract (en)
[origin: EP0959297A2] A light mat (1) for electrically illuminating objects (2) which are spread out, e.g. buildings, ships, landscape, etc. comprises numerous electric light sources (6) connected to an electricity supply. The light sources are located in or on a flexible or partially flexible layered member (3) with a base layer (4). The electricity supply is located on or in the layer member.
