Abstract (en)
[origin: WO9834010A1] The invention concerns a hewing or cutting roller (1) with variable cutting width, wherein two pivotable cutting or hewing tool carriers (4, 5) are disposed on at least one lateral end face (2) of the hewing or cutting roller (1), transversely to the axis thereof. One of the tool carriers bears a locking bolt (10) which, in the extended position of the tool carriers (4, 5), co-operates with a hook-shaped locking member on the other tool carrier.
