Abstract (en)

[origin: EP0961077A2] The radiation head is constructed of at least three assembled parts, namely a radiation housing (1), an insertion part (2) and a plug part (3). The insert part is inserted through the insert opening (1.2) in the radiation housing (1) and the plug part (3) is inserted in the corresp. plug opening (1.3) in the radiation housing. An electric bulb carrier is located in a recess (2.3) in the insertion part. The bulb contacts (5,6) are arranged in the plug part (3).
