Abstract (en)

[origin: EP0962166A2] The brush comprises bristles located on the brush head, being arranged in concentric circles and being inclined at greater angles the further there location is from the brush head centre. The outermost bristles project out over the edge of the brush head. The bristles are very short (between 2 and 3 mm). The brush head has a narrow diameter ( between 4 and 5 mm), is disc-like in shape and is removable from the handle.
