Abstract (en)  
[origin: EP0962614A2] A main profile (1) moves as the window is opened and shut. The inner lengthwise side has a slope of 45 degrees with serrated incisions on the lower length, and with rectangular incisions on the upper length. A flat profile (2) inserted into the main profile has a short base screwed to the window frame for guiding the main profile. A toothed lever (4) is mounted in the flat profile. A slide piece (6) is fitted into the main profile.
