Abstract (en)

Feeding device of packaging labels or blanks, in particular on a cigarette packing machine, or similar, these labels or blanks are fed in stacks (P) tied by a tie band (F), being provided with a cutting station (T) for the tie band (F), a feeding station (3) of the stacks (P) of labels or blanks and conveyor means (2) of the stacks (P) from the cutting station (T) to the feed hopper (3). According to the invention, the conveyor means (2) of the stack (P) of labels or blanks from the cutting station (T) of the band (F) to the feed hopper that are made in shape of clamping jaws (102, 702) of the stack (P) of labels or blanks and that comprise means (6, 6') for gripping the band (F) that act only on the band (F) itself, holding this latter and leaving the stack (P) of blanks free. <IMAGE>
