Abstract (en)

[origin: EP0966068A1] The plug-in connector (106) has a housing divided in its longitudinal direction into at least 2 sections, the front section (104) having cylindrical contact elements (24), cooperating with corresponding cylindrical contact elements (32) of the rear section, connected to the electrical cable conductor wires. The front section has a housing shell fitted with inserts receiving the cylindrical contact elements.
