Abstract (en)

[origin: EP0967332A2] The device for cleaning roadway edges and a part of the verge comprises a scraping plate (1) provided with a bevel (4). The plate is arranged along the lower front edge of an excavator bucket (2). The device also has a cutting disc (6) fixed by a support (9) on the side of the excavator. The disc is fixed by its hub (8) to an oscillating arm (7). The hinge point which adjusts the arm clearance height is located in the rear part of the arm and the support
