Abstract (en)
[origin: DE19712957A1] The invention relates to the use of a polymer dispersion as an additive for lacquer preparations. The invention is characterized in that the polymer dispersion contains (i) one acrylate polymer based on 30-60wt. % C1-C8-Alkyl(meth)acrylate monomers, 30-60wt. % vinyl aromatic monomers and 0.5-10 wt. % (meth)acrylic acid and (ii) a non-associatively acting rheology stabilizer containing an acrylate copolymer based on (C1-C6)-alkyl(meth)acrylate and (meth)acrylic acid.
