Abstract (en)  
The invention relates to a cable adapter (1) for a connection between a printed circuit board (2) and a coaxial cable (3) with only an ground pin (10) and means (11) for receiving the coaxial cable (3) which are constructed in such a way that the inner conductor (30) of the received coaxial cable (3) is spaced from the ground pin (10) so that - when the cable adapter is assembled - the inner conductor (30) and the ground pin (10) can be inserted into two correspondingly spaced pin holes (20, 21) on the printed circuit board (2). <IMAGE>
