Abstract (en)  
[origin: US6159555A] PCT No. PCT/EP97/06387 Sec. 371 Date Aug. 9, 1998 Sec. 102(e) Date Aug. 9, 1998 PCT Filed Nov. 16, 1997 PCT Pub. No. WO98/43904 PCT Pub. Date Oct. 8, 1998The invention relates to a method for electrostatic charging of the two outer sides of at least one material web with charges of opposite polarity, prior to the further processing of the at least one material web, with the web being guided through the nip of a pair of rollers that are parallel to one another and are arranged with a short space between them, characterized in that the electrostatic charging of the two outer sides of the at least one material web is performed by the rollers in the nip between them.
