Abstract (en)

[origin: EP0972904A2] The furniture door frame (3) is in a hollow chamber profile structure, with holders for fittings (10). The holders have projections (9) extending into the interior of the hollow frame profile (3), next to each other. The fittings (10) have a fixed clip mounting action, fitted with one or more spreaders which bear against the surfaces of the projections (9).
