Abstract (en)

[origin: EP0972985A2] The lamp housing (10) receives at least one recessed light, e.g. a downlight and its operating device, e.g. a transformer, the opening (14) for insertion of the recessed light provided with a closure element (15) secured to a shuttering element (17) for the concrete component. A releasable direct fixing is provided between the lamp housing and the closure element.
