Abstract (en)

[origin: DE19716154A1] The invention relates to storage-stable lyophilized pharmaceutical preparations of biomolecules, wherein said biomolecules are selected from the group comprising proteins, peptides, nucleic acids and carbohydrates and further contain one or more basic D or L amino acids in addition to one or more aminodicarboxylic acids, hydroxycarboxylic acids or dicarboxylic acids or their physiologically compatible salts thereof. The auxiliary substances are available in the lyophilized culture partially or fully in amorphous form.
