Abstract (en)  
[origin: US6363582B1] The invention relates to pin-on clip, which is characterized by a support plate comprising a receiving orifice and a printable plate which can be applied to the support plate, having a visible side and a holding clip located on the outer face of the rear side of the pin-on clip. The holding clip is preferably made of metal and can be secured in the receiving orifice by a clamp.
