Abstract (en)
[origin: EP0977314A1] A plug-in connector (15) has several contact elements fitted inside a case (21) with a first connector terminal (18) for a plug and a second connector terminal (19) fitted at an angle over an adapter (2) for a plug-in connection with through hole plated drilled holes (17) in a printed circuit board (14). The second connector terminal is slotted on axis for a springy radial fit in a through hole plated drilled hole. An access limiter (23) is slotted in a plug-in direction.
