Abstract (en)
[origin: WO9934063A1] The invention relates to a meltable sealing strip (3) for closing sheet piles in deep foundation work, civil engineering and canal building. The invention also relates to a method for the production thereof, in addition to a method for applying said strip to a sheet pile. The sealing strip (3) comprises at least one melt film coating containing bitumen, deposited on at least one side of the surface of the strip.
