Abstract (en)
[origin: WO9949367A1] The invention relates to a conventional type clock with a date, hour, minute and seconds display, characterised in that Maya signs (3) are provided instead of the usual hour signs and in that the 20 Tzolkin day symbols (1) are applied to an outer ring (4) that can rotate according to the clock movement. The invention is also characterised in that the meaning of each of the respective combinations of Maya signs (3) and Tzolkin day symbols (1) can be inferred from the corresponding Tzolkin calendar.
