Abstract (en)
[origin: EP0985547A2] The adhesive security cover (1) comprises a transparent film layer (2), a lower adhesive layer, an upper opaque layer and a lacquer layer (20). The film layer has a void film area which results in irreversible optical changes when removed. The lacquer layer covers the window shaped area around the film layer. A pattern or drawing is applied on the lacquer which can only be seen using UV light.
