Abstract (en)

[origin: WO9855711A1] The invention relates to a roof drainage device, specially a roof gutter (1) with a downpipe and/or gutter braces, characterized in that said device is provided with at least one lighting element (2, 3). The inventive device enables objects to be illuminated as desired, i.e. it provides an opportunity to illuminate elements fitted with said device without requiring additional specific design or construction work such as arranging projectors in dormers.
