Abstract (en)

[origin: EP0987192A2] For the transport of insulation boards (2) to a construction site, especially boards of rock wool, they are assembled into a package (1) for carriage. For the transport of insulation boards (2) to a construction site, especially boards of rock wool, they are assembled into a package (1) for carriage. The surfaces give each board (2) a cube shape. The boards (2) are collected together on a pallet (7) or the like, with their large flat surfaces against each other, with a bonding agent between them for adhesion as an adhesive on a carrier of strips of film, nonwoven, woven material, netting, etc., of filaments and especially of glass or plastics, or fibers of wool, cotton and/or viscose. The boards are coated with a mineral oil, and the like. The package of insulation boards (2) is wrapped with a stretch film.
