Abstract (en)
[origin: WO9858830A1] The sulky comprises a three-point central part (5) connecting the side parts (3) and the wheel bridge (4) of the sulky in an articulated manner. The central part has a U or C-shaped bracket (8) whose front ends are connected to the front clamping members (7) of the side members in an articulated manner. The seat (6) is mounted on the inwards shaped wheel bridge (4) and has a preferably foldable back rest (16), designed to facilitate rider entry.
