Abstract (en)
[origin: WO9901339A1] The invention relates to an arrangement and a method for handling luggage to and from a cabin-related cruiser. The arrangement and the method for handling luggage comprising cassettes, with at least four wheels, which accommodate suitcases of standard size and into which all the suitcases for a cabin are loaded, and wheeled pallets on each of which three to six cassettes carrying suitcases can be loaded and which are designed so as to be readily transported in the cruiser's corridors. The cabins are fitted with a separate space, such as a cassette cupboard, for the cassette.
