Abstract (en)

[origin: WO9855579A1] The present invention comprises a cleaning composition, particularly an automatic dishwashing composition, comprising an effective amount of a protease enzyme cleaning system comprising the combination of at least one chymotrypsin-like protease enzyme and at least one trypsin-like protease enzyme, where the at least one chymotrypsin-like protease has an enzyme activity ratio of sAAPF-pNA activity/bVGR-pNA activity of at least about 15 and the trypsin-like protease enzyme having an enzyme activity ratio of sAAPF-pNA activity/bVGR-pNA activity of less than about 10.0; and cleaning adjunct materials.
