Abstract (en)

[origin: WO9855580A1] The present invention is directed to solid amine oxide compositions which are useful in formulating detergent products, such as laundry detergents, shampoos, personal cleansing compositions, and cosmetic compositions, especially solid or granular cleaning products. These solid compositions consist of (a) amine oxide and (b) complexing acid. The complexing acid is defined as a saturated or unsaturated carboxylic acid with at least 5 carbon atoms, phosphonic acid, and mixtures thereof.
