Abstract (en)

[origin: WO9855016A1] A medical guidewire (1) is intended for use in intravascular medical procedures involving the use of magnetic resonance systems. The guidewire (1) has a body (2) and a distal tip portion (3). The distal tip of the guidewire (1) includes several markers (4) embedded in the distal tip portion (3), which are more visible under MR than the remainder of the guidewire.
