Abstract (en)  
[origin: EP0992688A2] The pump unit has a pump (5) with pump chamber (8) having intake (10) and outlet (11). The outlet has at least two associated separate pump outlet connections (33,34). One, pref. all connections are formed for tool-free connection of components, and at least one is connection socket with outer thread. One of the connections is direction-adjustable and may be locked in position pref. without tools. One connection is connected to the domestics water mains, and the other is connected to pref. a small-volume pressure accumulator tank pref. with less than approx. 1000cm<3>.
