Abstract (en)

[origin: EP0993875A1] First a coloured decor layer (12) is applied to a first carrier (10) having a release property and then the decor layer is transferred from this first carrier to a second carrier having a release property and then from here to the object. A varnish layer can be applied after the second step and before the last step. The varnish layer can be partially cross-linked prior to transfer to the object.
