Abstract (en)
The closure catch has a fixing element (2) for securing the closure catch to the edge of a housing component, a central pressure section (3) and a catch lever (4), with film hinges (5,6) between the fixing element and the central pressure section and between the latter and the catch lever. The fixing element has projecting elements (12,13) fitting into locating slots provided by the housing component and a snap-action hook (11) cooperating with the edge of the housing component

Abstract (de)
Ein einstückig gebildeter Gelenkverschluss (1) mit einem Befestigungsteil (2) an einem Gehäuse (23), einem mittleren Druckteil (3) und einem Verschlussbügel (4), die miteinander durch Filmscharniere (5,6) verbunden sind, weist überdimensionierte schlaufenbildende Filmscharniere (5,6) auf, um Zug- und Druckkräfte auf diese zu vermindern. <IMAGE>
