Abstract (en)

[origin: EP0995368A2] The mascara unit has a container (1a) for the liquid and a closure cap (5a) which fits onto the neck (3a). Inside the cap is a handle (17a) and applicator. The applicator can be fitted to the handle or the handle can be connected e.g. by detent connection to the cap by the user after the user has chosen the selected applicator or handle from a variety of same. The container has a separate closure and sealing device without handle or applicator. Preferred Features: The connection can be a detent bead and detent shoulder.
