Abstract (en)

[origin: EP0995497A1] Apparatus for generating and delivering a cascade-like jet of water. It comprises means (12) for sucking and supplying the water to an outlet opening (16) for said jet. Between said suction and supplying means (12) and said outlet opening (16), there are provided means for accumulating the water consisting of a varied section for conveying the water flow, and means for deflecting the water flow consisting essentially of two portions of the water supply pipe, the axes thereof are inclined with respect to each other. <IMAGE>
