Abstract (en)

[origin: EP0995710A2] The folder consists of a base with two prismatic projections (101,102) of different heights and a V-shaped recess (120) between them, used in conjunction with a clamp (200) into which the paper sheet is inserted. When the sheet is fully inside the clamp the latter is pressed down into the V-shaped recess to make a first fold, while a second fold is made along the upper edge (111) of the taller prism.
