Abstract (en)
Ironing board with steam exhauster, which can be utilized in combination with an iron with steam generation, provided with a solenoid valve for steam flow. Ironing board comprising control means (12; 41) for the exhauster (9), associated to the solenoid valve and adapted to control such exhauster (9) depending on the operative condition of the same solenoid valve. Different versions of the control means are provided. Advantages : the steam is steadily sucked and eliminated as long as the iron is operating, without the need of manual interventions. <IMAGE>
