Abstract (en)

[origin: EP0997602A2] The cladding system consists of an insulating glass element (5) mounted in the casement/leaf by means of at least one glazing block (9) in the glass groove. The exterior of the casement/leaf has a cladding element (4). A sealing element (20) seals the cladding element in relation to the insulating glass element. The sealing element has a sealing lip (8) cured towards the outer side of the casement/leaf.
