Abstract (en)
The sign is made from a panel (1) with a series of projecting studs (5) spaced at regular intervals on the points of intersection of vertical and horizontal lines (4). Each of the studs is able to receive a disc (2) which snaps onto it to form part of a manually-arranged symbol. Variants of the design can have discs with central studs which fit into holes in the panel, or the panel can be made in a series of clip-together sections.

Abstract (fr)
Ce dispositif pour la réalisation de signes matérialisés par la juxtaposition de points sur une plaque, comporte au moins une plaque (1) proprement dite, destinée à coopérer de manière réversible avec des points constitués de ronds (2), dont l'assemblage avec la plaque (1) s'effectue par simple clipsage ou encliquetage. <IMAGE>
